

### **British Mastitis Conference 1988**

Progress and Problems in the UK: An overview

J.M. Booth

Herd Problems, investigation and advice

P.G. Francis

Mastitis control in a Devon veterinary practice

A.M. Biggs

My route to controlling mastitis

L.R. Northey

Mastitis-Counting the cost

H.S. Beck and F.H. Dodd

Mastitis and Milk Quality

F. Harding

Review of UK and International research of mastitis

A.J. Bramley

Propsect for development of effective mastitis vaccines

F.J. Bourne

Milking machine and mastitis

R.J. Grindall

Research of automatic milking

M.J. Street

Intramammary mastitis therapy – some new developments

D.P. Dobson

### **The Environment and Mastitis 1989**

Why environmental influences on mastitis are important

A.J. Bramley

Design and maintenance of housing systems

J. Sumner

Hygiene of litter

P.G. Francis

Dietary selenium and Vitamin E influence the resistance of cows to mastitis

K.L. Smith, J.S. Hogan & B.P. Weiss

Wide bore milking systems

P. Hollis

Machine milking and mastitis

R. MacPherson

Investigating a herd mastitis problem

R.W. Blowey

### **1990 Mastitis treatment and making it work**

Cell counts mean money

J.M. Booth

Farmer's guide to antibiotics

P. Keen

Tacking the mastitis case

H.A. Gibbs

Should I still use dry cow treatment

E. Jackson

How to avoid antibiotics in milk

F.J. Anthony

Summer mastitis: Epidemiology, aetiology, prevention and therapy

J. Sol

Pre-milking teat disinfection

M.F.H. Shearn

Mastitis in sheep

G. Watkins

Vaccinating against mastitis

A.W. Hill

### **1991 British Mastitis Conference**

Cell count payments – the latest position

J.M. Booth

Can cell counts be too low

M. Bouman

On-farm tests for sub-clinical mastitis

J. Sumner

Tackling my mastitis problem

Hollinshead

Testing milking installations to prevent problems

J. Fyee

The role of homeopathy

G. MacLeod

Some alternatives to mastitis

P. Gwynn

Is treatment necessary

N. Craven

Teat dipping before milking – UK results

S Langridge

The effects of milking frequency on mastitis

J.E. Hillerton

### **1992 British Mastitis Conference**

Prospects for breeding for improved resistance to mastitis

B. McGuirk

Defence mechanisms of the udder

A.W. Hill

Using cell counts

Cell counts around the world

J.M. Booth

How we are using cell counts

A Biggs R.G.N. Harris

Problem solving

Tackling mastitis on the farm

P. Edmondson, N. Christensen

Clinical research

Immune responses in the bovine mammary gland

J. Fitzpatrick

Milk secretion

C. Knight, C.J. Wilde

A new slant on treatment

J. Peel

### **1993 British Mastitis Conference**

Design of milking machines

E. O'Callaghan

How the milking machine affects mastitis

J. Baines

Review your knowledge of mastitis

J. Fishwick, A. Andrews

Results of our approach to mastitis control in Scotland

D. Logue, J. Gunn, D. Fenlon

Introducing a national mastitis control programme

E. Logan

The treatment of a difficult case of mastitis

R. Blowey

Cell counts – the lower the better

A Sanders

Mastitis, milk quality and milk price

M. Hurst

### **1994 British Mastitis Conference**

The use of a J5 bacterin to prevent coliform mastitis in the United States

G. Hewett, M. Lucas

Vaccine – have they a future in the UK

J.E. Hillerton

Teat skin lesions on the dairy cow

M. Shearn, J. Morgan

My approach to mastitis control

B. Russell

High cell count problem herds

R. Williams

Mastitis and quality milk production: the progress we have made

J. Booth

Reducing cell counts

I Baker

How am I planning for the future

I Watson

A view of the market demands on dairy farmers

J. Sumner

### **1995 British Mastitis Conference**

Tackling a high somatic cell count – a case study

J. Fishwick

Treatment and prevention of coliform mastitis

M. Green

Coliform mastitis- a view from the farm

R. Wiseman

Common problems encountered in milking machines

B. Nicholls

Machine milking for quality

J. Baines

What the purchaser requires in quality from the farmer

C. Pearce

Impact of the EU directives on the UK dairy farmer

W. Madders

Early detection and early treatment of mastitis –can it work

J.E. Hillerton, P. Milner, K. Page

Potential vaccine strategies to control Streptococcal uberis mastitis

J. Finch, J. Leigh

### **1996 Managing Mastitis for Milk Quality**

How antimicrobials work in mastitis

Q. McKellar

Mastitis therapy – what I am trying to achieve

M. Pott

Cell count recovery from mastitis

J.E. Hillerton

Mastitis control a team effort the consultant and the farmer

K. Allen, A. Hayward

Matching your milk to the market

P. Nicholson

Training for milk quality standards

R. Barfoot

Producing quality milk

T. Draycott

The evaluation of bulls for somatic cell counts in the UK

G.J.T. Swanson and R.A. Mrode

### **1997 Progress in Mastitis Control**

Progress in mastitis control – an evolving problem

J. Booth

A different milking machine

J.E. Hillerton

Husbandry, management and mastitis

W.R. Ward

Investigation non-antibiotic mastitis therapy

C.H. Knight, J.L. Fitzpatrick, D.N. Logue, D.J. Platt, S. Robinson, H.E. Ternent

The duration of *Streptococcus uberis* intra-mammary infections

C. Watt

Compliance of new milking machine installations with relevant standards and static test performance

I Ohnstad

Vaccines for bovine mastitis : fact and fiction

R.J. Yancey

The Scandinavian way of treating cows with acute clinical mastitis

P. Jonsson

Progress in mastitis control

A J. Bramley
